performance, reliable thread trimming, easy operation for back tacking, stitch compensation, dense stitching and back tacking. Besides, The big top dial enables convenient adjustment of presser foot alternating amount and proper sewing speed, and the automatic lubrication system makes the machine run smoothly and durably, It's available in stitching leather, nylon, synthetic leather, canvas, for Car Seats, Car Interior Decoration, Upholstery, Tents, Umbrella, Travelling Case, Travelling Bags, Sports Requisites, etc....

It features a heavy duty triple feeding action by way of: bottom feed, needle feed and walking foot top feed. These three different feeding components combine together to give a positive feed action which is well-matched with heavy or bulky material and fabrics. It is fitted with the more advanced large vertically mounted hook assembly and drive transmission: which usually perform better than the standard and cheaper horizontal hook type set-up.

The machine is smooth running, durable, versatile and its robust construction includes: needle roller bearings for the arm and hook shaft etc., cog driven belt assemblies and more importantly an automatic oil lubrication system is fitted, which reduces wear and tear considerably. A stitch length of up-to 9mm is available for functional and decorative
