Hot Air Welding Machine for Inflatable Boats and Tents

Product Name: Hot Air Welding Machine for Inflatable Boats and Tents

Model NO.: FX-V13

Origin: Zhejiang, China

Packing: Wooden Case

Brand Name: FOXSEW

Product Details: Hot Air Welding Machine for Inflatable Boats and Tents

FOXSEW Hot Air Welding Machine for Inflatable Boats and Tents

Features of FOXSEW FX-V13

TAIZHOU FOXSEW SEWING MACHINE CO.,LTD

- (1). Providing super-large space for welded, more suitable for super-large, large, medium, small size products etc...
- (2). Controlled by programmable PLC, displays the digital setting by high clear display processes to be modified at any time according to user's requirement.
- (3). Auto controllable temperature, highly stability, temperature vary between $\pm 2^{\circ}\text{C}$, the upper limit temperature with alarming device.
- (4). To design controlling by feet at ease, suitable for long working according to physical dynam.
- (5). Be possible of working 24 hours continuously and produce highly efficiently.
- (6). Unique heating tube structure design.
- (7). Auto slightly fading function, to avoid blank space of hot air sealing.
- (8). Providing with king-size of twist square design.

Technical parameter:

Model: FX-V13

Power supply: AC 220V 50Hz

Rating efficiency: 3000W

Heat Control: Room temperature $\sim 700^{\circ}\text{C}$ adjustable without bands.

Speed: Standard: 1~18m/min infinity variable

Air supply: 0.35~0.5Mpa

Pinch roller Width: Standard: 30mm mill finish, steel grain, straight grain to be chosen according to demand.

Width of the gun diameter: Standard: 24mm or 27mm, others can be chosen according to demand.

Exterior size: 1500mm x 720mm x 1600mm

Net Weight: 245kg

Prevention against jumping over sewing work: There are adjustable devices to prevent the gun from jumping over the seamed sections when the gun is moving inward with the idle wheel starting, or when the gun moving outward with the idle wheel stopping.
