## Mattress Tape Edge Sewing Machine

- **Product Name:** Mattress Tape Edge Sewing Machine
- **Model NO.:** FX-WB-3
- **Origin:** Zhejiang, China
- **Brand Name:** FOXSEW
- **Product Details:** Mattress Tape Edge Sewing Machine

Description: This Mattress tape edge sewing machine is mainly used for tape-edging of mattress panel, sleeping bag and tent.

1. Advanced chainstitch sewing head.
2. Auto-lifting table, hand-controlled tilting of sewing head.
3. Variable speed for moving of carriage and sewing, auto-slowdown at corners.
4. Straight, even and attractive seam.
5. Stainless steel table top.
6. Equipped with level-adjusting device.
7. Low noise, small vibration, stable performance.

Main Technical Parameters:

Turning Speed Auto Slow Down

Sewing Head with Chainstitch or Lockstitch

Working Angel of the Sewing Head: 35-55 °

Thickness of Mattress:(50-280)mm, (150-400) mm, (250-500)mm

Carriage Speed (m/min): 5.5-16

Table Lifting Range: 140mm

Table Size: 1950×1400mm

Sewing Head Speed (r/min): 1100-3000

Overall Dimension: 2380×1400×1650mm

Total Power: 1.2Kw

Total Weight: 598Kg

Power Supply: 1-Phase/3-Phase, 380V 50Hz

Capacity: 15units/h

## Mattress Tape Edge Machine

- **Product Name:** Mattress Tape Edge Machine
- **Model NO.:** FX-WB-6
- **Origin:** Zhejiang, China
- **Brand Name:** FOXSEW
- **Product Details:** Mattress Tape Edge Machine

Features: FX-WB-6 Mattress Tape Edge Machine is mainly used for sewing mattress. A precision guide track is equipped on its support frame, which makes the walking carriage move accurately and the machine run smoothly. At the same time, its walking carriage running, sewing head tilting angle and working table height are controlled by electricity. This feature makes operation more convenient. It is a perfect equipment for manufacturing high-class mattress.

1. It adopts advanced 300U chain stitch high-speed sewing head;
2. Electric lift working table, manual adjustable sewing head;
3. Sewing, sliding guide move adopt variable frequency stepless speed regulation, speed auto slowdown at corner;
4. The stitches are straight, even and beautiful;
5. Stainless steel table;
6. Stands set the level adjustment device;
7. Built-rotating electrical power supply, no special requirement for installing space;
8. Stable performance, low vibration and noise.

### Specifications:

Model No.:	FX-WB-6
Sewing Head Type	Chain stitch
Sewing Head Motor rotary speed	Max. 3065r/min
Carriage Speed	13.6 m/min

## Auto-Flipping Mattress Tape Edge Machine

- **Product Name:** Auto-Flipping Mattress Tape Edge Machine
- **Model NO.:** FX-WB-4A
- **Origin:** Zhejiang, China
- **Brand Name:** FOXSEW
- **Product Details:** Auto-Flipping Mattress Tape Edge Machine

Features: FX-WB-4A Auto-Flipping Mattress Tape Edge Machine is mainly used for taping edge of mattress panel and soft cushion. Rather than moving around, the head is fixed but can move up and down to adapt to different height of mattress. The obliquity of the head is adjustable. When working, the conveying belt drives the mattress to proceed, When one side is finished, the machine can swerve 90° automatically to start taping another side. The taping of the corner is finished while swerving. When the top four sides are completed, the machine can overturn the mattress for taping the other four sides. This machine needs only one operator and there is no need for him to move around or overturn the mattress manually. Thus higher efficiency and less labor is realized.

Technical characteristics:

- 1, Featuring the heavy-duty 300U Chain stitch sewing head and variable speed control, the Tape Master is capable of taping all sizes of mattresses from crib to king.
- 2, Specifically designed for today's heavy premium and pillow top mattresses, the high-speed head sews up to 3000 RPM.
- 3, The operator remains in a stationary sewing position while wide controlled conveyor belts move the mattress. The patented compression and turning devices built into the machine bring the mattress to the sewing head.
- 4, The process is further automated by the unique design that turns and flips the mattress in preparation for taping the other side.

## Mattress Edge Seaming Sewing Machine

- **Product Name:** Mattress Edge Seaming Sewing Machine
- **Model NO.:** FX445G-VB
- **Origin:** Zhejiang, China
- **Brand Name:** FOXSEW
- **Product Details:** Mattress Edge Seaming Sewing Machine

Description: This mattress tape edge machine is mainly used for tape edging of mattress panel, sleeping bag and tent.

Technical features:

1. Equipped with imported or China-made sewing head according to customers requirement.
2. Hand-controlled lifting table, hand-controlled titling of sewing head.
3. Hand-controlled speed for moving of carriage and sewing, hand-controlled slowdown at corners.
4. Straight, even and trim seam.
5. Low noise, low vibration, stable performance.

Main Technical Parameters:

Thickness Of Mattress: (40-300)mm

Table Lifting Range: 260mm

Max Tilting Angle: 40

Power Supply: Single-Phase, 220V, 50Hz

Table Size: 1930×1300mm

Overall Dimension: 2130×2010×1565mm

Total Power: 400W

Total Weight: 464Kg

## Mattress Flanging Machine

- **Product Name:** Mattress Flanging Machine
- **Model NO.:** FX-B4
- **Origin:** Zhejiang, China
- **Brand Name:** FOXSEW
- **Product Details:** Mattress Flanging Machine

**Features:** This mattress flanging machine is mainly used for flanging mattress panel and fabric. It can also sew non-woven fabric together with the panel.

1. Double-needle-four-thread synchronous structure and strong cloth-feeding system ensuring feeding precision and perfect seam.
2. The sewing speed is controlled with imported needle position motor and control box.
3. Equipped with pneumatic auto presser foot, equipped with special encoder to position needles.

## Heavy Duty Mattress Flanging Machine

- Product Name: Heavy Duty Mattress Flanging Machine
- Model NO.: FX-B5
- Origin: Zhejiang, China
- Brand Name: FOXSEW
- Product Details: Heavy Duty Mattress Flanging Machine

FX-B5 Heavy Duty Mattress Flanging Machine is mainly used for flanging mattress panel and over-thick fabric. It can also sew that non-woven fabric together with the panel.

Technical characteristics:

- 1, Japan PEGASUS high speed straight needle sewing head
- 2, Straight needle design,
- 3, With auto oiling system ensuring sufficient lubrication; with cartridge oil filter, easy for replacement & cleaning.
- 4, Push-button type stitch length regulator, no need for changing the cam
- 5, Micro adjustment of differential feeding ratio
- 6, With thread & needle cooling system, thread & needle can be lubricated and cooled by C10 oil, avoiding the thread & needle breakage as well as thread leaping.
- 7, Adopt double-needle-five-thread synchronous structure and strong cloth-feeding system ensuring feeding precision and perfect seam,
- 8, The sewing speed is controlled with imported needle position motor and control box.
- 9, Equipped with pneumatic auto presser foot, equipped with special encoder to position needles,
- 10, Low noise, small vibration, stable performance

## Tape Edge Sewing Machine Head

- **Product Name:** Tape Edge Sewing Machine Head
- **Model NO.:** FX-300U
- **Origin:** Zhejiang, China
- **Brand Name:** FOXSEW
- **Product Details:** **Tape Edge Sewing Machine Head**

FX-300U is a double lock chain stitch sewing head suitable for all manufactured models of tape edge machine in the market.

The FX-300U Tape Edge sewing head is a proven design within the mattress industry. It offers fast reliable production with speeds of 3500 r.p.m.

Specification:

Double Lock Chain Stitch Type 401

Max Sewing Speed : 3500 r.p.m

Feed Type: Compound Feed & Alternating Pressers

Max Stitch Length : 7.6mm

Clearance Under Presser Foot : 11.00mm

Needle Bar Stroke : 36.5mm

Dimensions from Needle to Side of Machine Bed : 6.9mm

Supplied with a Single or Double Fold Tape Binder

with frequency converter velocity modulation, the machine has two servo drive variable speed puller with long lasting urethane rollers, material tensioning device, and re-winder. Machine has excessive material auto-cutting device along with a vacuum scrap-collection device. Additionally, it is equipped with thread break detection device as well as material splice auto-stop device. It is used for flange the mattress fabric. It has two independent flanging/sewing head, flanging/sewing head driving by inverter, feeding by the polyurethane rollers, winding synchronously, auto-cutting excessive material. Additionally, it is equipped with a waste-collecting device by vacuum, thread broken detection device and material splice auto-stop device.

Specifications:

Model No.	FX-KB-2A
Serging Mode	Single Border, Dual Border
Sewing Width	5-7 mm
Serging Width	150-500 mm (adjustable)
Serging Speed	15-30 m/min (adjustable)
Max. Material Thickness	20 mm (middle density)
Needle Pitch	0-6 mm (adjustable)
Max. Presser foot lift	15 mm

- **Product Name:** Mattress Overlock Machine
- **Model NO.:** FX-3000
- **Origin:** Zhejiang, China
- **Brand Name:** FOXSEW
- **Product Details:** Mattress Overlock Machine

Features: This machine adopts 2 straight needles on the head. Automatic oil-offerings, so that can lubricate fully each part and easy to unpick and wash. It adopts cooling equipment with automatic lubricating system, which avoid cutting needle, cutting thread. It adopts double needles with 5 threads, which matching well feeding. nice stitch and good efficient. It adopts high-technology motor so that have the high-speed operation. It adopts automatic presser foot with stream operate, and automatic operate by control. It runs stable and low noise. This machine mainly used to the material of mattress, extra thickness fabric.

Specifications:

Model NO.	FX-3000
Max. Sewing Speed	4000 r.p.m
Over-lock Width	30 mm
Over-lock Thickness	70 mm
Stitch Pitch	2-6 mm
Needle	DOX5 22#
Needle Gauge	0-6 mm
Air Pressure	0.5-0.8 MPA

## Mattress Handle Strap Tacking Machine

- **Product Name:** Mattress Handle Strap Tacking Machine
- **Model NO.:** FX-A7
- **Origin:** Zhejiang, China
- **Brand Name:** FOXSEW
- **Product Details:** Mattress Handle Strap Tacking Machine

Features: This machine is mainly used for embroidering the special brand, mark or correlative graphics. It can also be used to put together and sew up with the materials. It adopts advanced digital control technology and driving by servo motor. Therefore the machine has excellent accuracy and reliability.

### Specifications:

Model NO.	FX-A7
Sewing Head Type	Lockstitch
Sewing Range	170 x 45 mm
Sewing Speed	2500 r.p.m
Sewing Thickness	5 mm
Needle Pitch	0.4 mm
Yield (Embroidering)	600-2500pin/min
Working Table Size	1200x820 mm
Yield (Tacking)	About 1pcs/min
Power supply	Single-phase, 220V-240V
Motor power	600W Servo Motor
